

BB CONES EXPORT

STANDARD CONE SIZES

Every **BB CONES** pre-rolled cone
and filter is handcrafted with care to the
HIGHEST QUALITY.

Just like selecting the perfect glass for your wine is important for the best-tasting experience, choosing the pre-rolled cones that will highlight your style of high is paramount.

Our **wood paper** cones are the most popular and have been for a very long time. Classic and timeless, Wood paper cones will stay lit through a storm and will maintain a slow and even burn rate.

Our **HEMP PAPER** cones are the most environmentally-conscious option and will take on a delicate aftertaste that will elevate the aroma of your bud. Our natural hemp paper is certified organic under EU Organic Regulations.

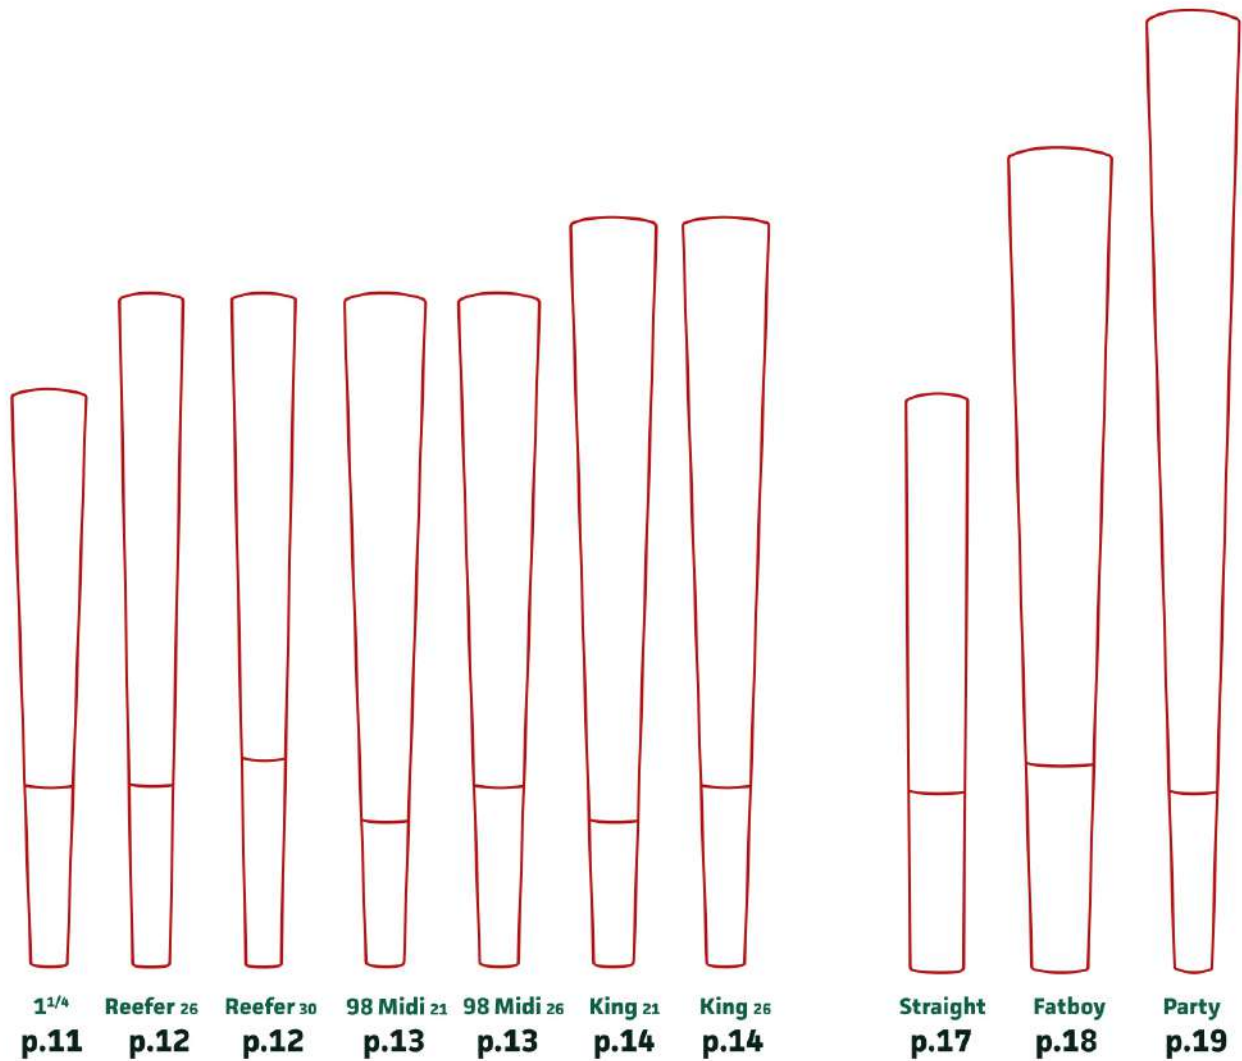

All of our pre-rolled cones and custom branded cones are **LAB-TESTED IN CERTIFIED LABORATORIES** in the USA and Canada under the strictest testing standards.

Our cones are **FULLY COMPATIBLE** with the Knockbox, Thumper, and **most industrial fully automated filling machines**.
